The Bingo Event will be played using the bingo mixing machine plus the flashboard/lighted game board and 75 bingo balls. The FABulous 4 game contains 150 total “daub” hold tickets with 3 different bingo numbers in different colors (B1-O75 in each of 4 colors – Red, Blue, Green and Orange). These hold “daub” tickets are played in conjunction with bingo balls called from the bingo machine.

Once the FABulous 4 game is completely sold out, the operator will announce that the FABulous 4 game, serial# _____, is about to be in play. The operator will then pick the first ball called from the bingo machine and this will determine the four FABulous 4 bingo event winners. The holders of the Red, Blue, Orange and Green tickets matching the first number called from the bingo machine at the designated time will win – **Red \$200, Blue \$100, Orange \$50 and Green \$25.** The operator should then record the winning ball number in point #2 in the instructions on the callers card.

If the game is not completely sold out in one day, the players will hold their tickets until the game is played. If the winner is not present at the time of play, the operator will post the callers card (with the winning number recorded in point #2) in plain view so the players can check the results the next time they visit the site.
